DOCUMENT RY HISTORY OF THE SECESSION -Wc vo already shown that the faugled Democratic party in Kentucky is the secession party under a new nlins; hnt the subject is of such grave and immeasurable importance that we deem it our duty to make e showing more full than we have vet made This duty we will now endeavor to per-

On the 19th of January last, Mr. Grover, of Owen, the secession leader in the Senato of the State, introduced into the Senate a set of resolutions with a preamble, as expressive of the views and sentiments of his political friends in the body. On the same day, Mr. W. P. D. Bush, of Hancock, the secession leader in the House, introduced the same paver in like manner into the House.

The paper was familiarly styled "THE Gaovea Resolutions", and was supported by every secessionist in the Legislature and denounced by everybody else there. The mcn who introduced the paper into the Legislature, and the men in the Legislature who accepted the psper, were all known secessionists. They were all undisputed and avowed secessionists. That is to say, they were all original and ac-

ant, because here is the spring of the movement for the reorganization of the secesmocracy. Here is the Itasca from which has rien the Mississippi of this pretended De-ocracy, if we may be permitted to use lange so excessively hyperbolical.

The paper in question, as we have said, was introduced into the Legislaturo on the 19th of January last. On the 20th and the 30th of the same month, a public meeting was held prinow in control of the Government, in violation of its oft repeated and most solemn vately in the Senate Chamber of the Capitol, of which the official report appeared in the Frankfort Yeoman of the 2d of February. The Yeoman was at that time the chief secession journal in the State. The report as it appeared in the Yeoman was as follows: PROCEEDINGS OF THE DEMOCRATIC MEETING HELD ON THE 29TH AND 30TH OF JANUARY.

At a meeting of the Democratic members of the Legislature of Kentucky, and a large number of the Democracy from various coun ties of the State, in the Senate Chamber in the city of Frankfort, Thursday night, Janu-ary 29th, 1863, Gen. Wm. Johnson, of Scott, was called to the chair, and W. P. D. Bush, of Hsncock, appointed Secretary.
On motion, the following preamble and res-

cions, offered by the IIon. A. P. Grover in Sennte, and hy W. P. D. Bush in the use of Representatives, on the 19th inst., erc unanimously adopted as the sense of the In times of war, as In peace, the Constitu

tion of the United States is the supreme law of the land. It prescribes the powers of the Government in its executive, no less than in its other departments, and it is the only legal ond of union hetween the States.

The Federal Government, as defined by the Constitution, when exercising the powers granted to it, is entitled to the allegiance of the people; but loyalty to the Government does not impose upon the citizen any obliga-tion to support an administration in the enforcement of a policy unauthorized by the Constitution or forbidden by its provisions but it is the duty of all good citizens to resist encroachments upon their rights, and to de-fend the Constitution of their country from violence. He who upholds the Executive, o the violation of its provisions, is disloyal the Constitution, and an enemy to the freedom

The Federal Government, deriving all its legitimate powers from the Constitution, is, therefore, the creature of the Constitution, and has no power in any department to suspend any of its provisions, or throw off its strictions under any pretence whatever.

The history of the present administration of the Federal government is a history of repeat-

The Editor of the Louisville Democrat, referring in his paper of the 8th of Feb- that they could there and then report themmuary to this movement and to the meeting selves, and give satisfactory reference as to that had just launched the movement, said: We had almost forgot to notice the se-cesh gatheriag at Frankfort. Indeed, they

were so quiet and private that the rest of man-kind didn't know what they had done until they published only what they chose to see the light. What they said in that private room, shut out from the world, we don't know. It is only from the unrestrained out-pourings in that secret conclave that the obect at heart could be made out. In their pub lished pamphlet there is a great deal against Liucoln which is true—true as preaching. They might have said more, perhaps, for the material is superabundant. But what will they do about it?

That is not so clear. They are for peace, nnd so is everybody else; but they don't state on what conditions, and they are everything. We are ready to make pcace any day that Da vis & Co. will say that they give up their issne of dividing this country. We do not wish to let them know that we give it up; that they may have their way and take what they want. This is just what this State will infer is the bject of these men. They are all original ecesh, so far as is known. Their counsels at he start would have sent Kentucky into the Southern Confederacy, and this State would nave been the bloody theatre of the war; and heir counsels now would lead to the same re sult. If they had told you that they would not sulmit to either extreme, they might have talked about peace and not have been misunderstood. Indeed, they are not misunderstood. Their antecedents show too well what they

All they say against the Administration than the rebel nrmies. The loyal men of Kentucky will not submit to this Administration and its party policy. Whilst that is distinctly understood, they will not succumb to the rebellion. We think there is power in the hal-lot-box to snbdne the criminal purposes of both extremes. They are the genuine Democracy of this State. They admire the courage of Northern men who, in the midst of trouble and danger, stood up for the Constitu-tion as it is and the Union as it was. They triots, and not for the purpose of separating from them.

And, again, the Editor of the Democrat in his paper of the 10th of February, referring more especially to the platform of the movement, said:

Shall the secession party with its tieket prevail at the ballot-box or not? If it does prevail, the rebellion, reanimated and reinforced in the very hour of extremest weakness, will renew the coatest with new energy and with new hope, whilst a strife divested at length of all civilized features, and torn by civil feud as vindictive and as deadly as the terrible vendetta of Southern Europe, will exchange the relative safety and prosperity and the unshadowed and unequalled glory of her present position for a wretchedness and a degradation all unmatched in the annals of this direful struggle. Men of Kentucky, will you recklessly precipitate upon yourselves and npon your country this appalling doom? Are you prepared, just as the frowning clouds of war are beginning o lighten and the sun of a glorious peace eems ready to break forth, madly shroud the heavens in a gloom tenthe sweet hope of peace is fresh seas of blood? | and impudent. f you are not, you must be prepared to rise in he strength and majesty of a true people and but down your ancient foe auew. For one or the other of these two emergencies you must ne prepared; because one or the other you will have to meet as sure as you are living men. We invoke you in this grave and mighty juncture to be true to yourselves.

SHOOTING .- An unfortunate affair occurred in Mnysville, on Saturday, says the Eagle, resulting in the death of an Irishman named Murphy, who was formerly n citizen of Maysville, hnt recently resided in Ciacinnati, Murphy had been drinking freely, and nublicly boasted that he had been riding with John Morgan for three days. A member of Captain Bierbower's company heard him and informed his captain. When questioned concerning what he had said, Murphy denied having made such boasts, but when confronted with the proof he partially admitted that he had used such language. Bierbowcr then ordered his arrest, when Murphy drew a revolver and attempted to shoot one of the soldiers, the ball fortunately going into the air. He then lowered the pistol and was in the act of shooting Captaiu Bierbower, when the latter shot him through the breast. Murphy then staggered and wheeled, when a squad of soldiers fired at him, killing him Instantly. The first shot would have been fatal. The decessed was at ono time au ardent Union man, and it is probable that his boasts of having been with Morgan were merely the effects of drink. His friends say that his visit to Maysville was for the purpose of huying cattle. IIc lenves a family, and his death will be mourned by many personal friends.

THE TRAITORS IN INDIANA. - The Indianapois Journal, among other incidents of Morgan's raid, mentions that "Morgan knew before he crossed the river who were his friends. and who had arms. Upon entering Corydon he showed a list (and so at Salem) of every citizen who had a Henry rifle or other improv ed arm, and immediately sent patrols to bring them in. In Corydon the spy was a young man who visited there three weeks before, and neturned with Morgan. At Salem, a descrier frem the 66th Indiana holdly joined Morgan We believe, however, that the convention and was armed by him, but was subsequently captured, and is now in the Salem jail."

OUR DANGER AND OUR DUTY .- Kentucky is about to pass a crisis involving to a greater extent the interests of our Commonwealth than any we have heretofore encountered. It has been proved beyond a doubt that partisans of the rebel army are now disbanding in order that they may organize themselves into hands, large or small, to make predatory raids into those portions of our State not protected by the presence of a loyal force. In all the Southern countles the people are cursed with numerous guerilla bands, engaged at present in stealing, but doubtless making preparations for the equally important work of controlling the approaching election in the State. We do not speak from mere conjecture but from the evidence of a gallant and well-known officer of a Kentucky cavalry regiment, whose name, for prudential reasons, we conceal, but whose statement we have hefore us in writing, and from it wo take such facts as will warn our people of their danger. A short time since, this officer, accompanied by a small party of gentlemen, some of whom belonged to the home guard of pose of obtaining information and accomplishand are unmolested, and yet they are ridiculous fact just as close as possible. ger. This party saw their camps, and con- addressed as Capt. Hines? versed with many of the citizens, who undisguisedly told them that they were acquainted with the horse-stealing operations going on in the border counties, that they gave aid and encouragement to them, and

were then concealed in that region. All of

these traitors and criminals, with their pro-

tection papers in their pockets, boasted

that they were as great rebels as ever,

and stated that it had been determined that every member of a home guard company in Allen county should go as Norvell did. They were all to be murdered, and their property confiscated—there the polite term for robbery. These protected rebels were much troubled the Mississippi and at Gettysburg, but expressthe election of Mr. Wickliffe as Governor, and defeat as many of the Union Democratic can- | North star! didates for Congress and the Kentucky Legislature as possible, in order to get the control part of extensive raids to be made about election time, wherever it can be done, particularly in the counties on the Tennessee border, from one end of our State to the other. Wherever it can be effected, the voting is to be dono by controlling the polls and requiring the no-moremen-and-no-more-money candidates to be alarm Union men and deter them from going to the election. They said that their last hope was to force Kentucky into the Sonthern Confederacy. If that can be done, it compensates for their recent defeats, and then. they say, their condition and that of "their government" will be no worse than it was before the Fonrth of July reverses. All concur in this, that they must have Kentucky, and this is the Insolent vaunt of the Tennessee rebcls now basking in prosperity under the protecting influence of the United States Government. As a part of the operations of this organization, numerons bodies of guerillas are now at work in the border counties, alarming the people and preparing the public mind for the panic under

about the first of August. Such is the danger which menaces onr State, and it is idle, it would indeed be criminal, to disguise its magnitude. What then is our duty? In the first place the Federal army must extend all possible protection to the border counties, about the time of the election, not to interfere with it, but to have it held according to law. As there is a scarcity of cayalry, commanders of forces branch in its mouth. should, temporarily at least, mount their men by pressing into the service the horses of citzens. The polls at all the precincts should be left free for all legal voters, but the citizens must not depend entirely upon the military protection. Every Union man should go to his voting place determined to cast his snffrage for the candidate pledged to sustain the institutions of the country and to uphold the government in spite of the weakness and wickedness of a temporary administration, and equally determined, so far as possible, to see that all other lawful votere shall be free to do likewise. Such a course on the | timental scoundrels, like Byron'e Corsair. part of the people would go far to circumvent the operations of those who would ruin the country, and in most instances would deter them from any attempt to carry out their designs. In addition to this, the laws governing elections, and particularly the act on the subject of expatriation, should be fully un

The Tennessee rebels, who have projected these raids upon our State on election day, regard the contest to be then decided as no struggle between Union men or Union parties, but emphatically one between the rebel Confederacy and the nation. If the Union Democratic candidates in Kentucky can be defeated, and men elected pledged to the no-more-men-and-no-more-money doctrine. they will regard it as a secession victory in Keutucky, an endorsement of the Southern Confederacy, and an intention to place our beloved and loyal old Commonwealth within por cent interest on Deposits for a specified time and the embraces of the rebels and under the juris- four per cent on those subject to ten days' notice of diction of Jeff Davis. PERSONS IN SPITE OF A COURT. Our neighbor in order to be consistent must necessarily hold that in the matter of military arrests there has been no "war against the Constitution" in the past, and according to his doctrine, we do not very well see how such a war is ever to commence in the future, as the doctrine makes the President in this particular a Constitution to himself; but our neighbor, so far as we remember, is not bound in like manner to hold that there has been no JUSTRECEIVED war at all against the Constitution in the past. We hope the remark is an inadvertency, and that our neighbor is not " about to commence" to advocate the constitutionality of all of the administration's past measures. His advocacy of the constitutionality of military arrests is enough in all conscience for a pink of conservatism. But there is no telling what our neighbor will advocate next. We

The Journal actually affirms the substantial statement about our meeting with Captain Hines. We now denounce the whole story as a falsehood. The secessionists call Judge Bramlette an abolitionist for not exclusively denouncing abolitionism in his speeches, and the abolitionista call Governor Seymour a secessionist for not exclusively denouncing secessionism in his speeches. The incident affords a significant assurance that both of these gentlemen are true Constitutional Unionists, with the courses and independence therewells to that many of the horses stolen from Kentucky the courage and independence thoroughly to handle the foremost evil in their respective localities without regard to the clamors of the patrons of the particular evil.
